BP 511 St. 371 Phum Tropeang Chhuk (Borey Sorla) Sangkat Tek Thla, Khan Sen Sok, Phnom Penh

EDUCATION

Passerelles Numériques Cambodia (PNC)
Associate Degree as Web Developer at PNC
Date: January, 06th, 2025 – Present

Sor Kheng KanTue 2 High School – New Generation School (NGS)
Baccalauréat Certificate
Date: Obtober, 08th , 2024

SCHOOL PROJECT

4 April 2026 – 3 May 2026
Role: Full-Stack Developer
ProductHub Project

Description: Developed a business product management web application designed to help business owners organize and showcase their products more efficiently. The system allows them to create and manage product listings digitally, eliminating the need to manually send product details to customers as before. Customers can simply access the business's personalized product website through a shared link, where they can conveniently browse available products anytime.

16 February 2026 – 2 April 2026
Role: Scrum Master
Achar Event Booking

Description: Developed Achar Event Booking, a web application designed to connect event planners with trusted vendors. I focused on creating a clean, user-friendly dashboard that serves as a central hub, giving planners a clear overview of their timeline and budget while enabling them to quickly book vetted vendors with just a few clicks.

24 January 2026 – 12 February 2026
Role: Full-Stack Developer
Real Time Chating Project

Description: Developed Chat Web Application is one of the most important projects I have developed to enhance my web development skills. It is an online platform that enables users to communicate through real-time chat. I created this application to provide a useful communication tool for students, while also demonstrating my ability to design and develop full web applications.

HARD SKILLS

Tools:

- GitHub (Version Control)
- Jira (Scrum Master, Agile Management)
- Figma (UI/UX Design)
- Canva (Slide, Poster)
- AWS Free Trial (Cloud Hosting)
- MS Office (Word, Excel, Power Point)

Programming Languages & Frameworks:

- Front-End: HTML, CSS, SASS, Tailwind CSS, Vue.js, React.js
- Back-End: PHP (MVC, Laravel - Basic), Python(Algorithm)
- Database Management: MySQL, SQL Queries, MongoDB, Firebase
- Software Architecture: OOP - TypeScript
- API Development: Laravel, Node JS

SOFT SKILLS

- Communication
- Problem Solving
- Teamwork
- Time & Task Management
- Leadership
- Researching
- Adaptability

LANGUAGES

Khmer : Mother toques

English : Pre-intermediate

INTEREST

- Volunteering
- Learning new programming languages
- Building personal projects
- Joining workshops
- Sharing knowledge

14 December 2025 - 2 January 2026

Role: Backend Developer

Expense Tracking System

Description: Developed a robust RESTful API for an expense tracking system, supporting CRUD operations for transactions, user authentication, and data categorization. Optimized MySQL database queries, reducing data retrieval time by 30%. Implemented automated monthly report generation and data visualization endpoints, enabling users to analyze spending habits.

6 October 2025 - 21 November 2025

Role: Full-Stack Developer

Voting System Project

Description: A web-based application designed for quick, secure voting on candidates, featuring real-time results and user authentication to ensure one vote per person.

10 July 2025 - 10 August 2025

Role: Full-Stack Developer

Ecomece Website

Description: Developed a responsive, fully static e-commerce interface showcasing a curated product catalog, shopping cart functionality, and navigation, focusing on clean UI/UX and fast load times.

Dear Mr./Mrs. Hiring Manager,

I am writing to express my strong interest in the **Web Developer Internship** position at ADITI as recommended by the ERO team at Passerelles Numériques Cambodia (PNC). I have long admired your company's innovative work and forward-thinking culture, and I am genuinely excited about the opportunity to contribute to your team.

As a second-year IT student at PNC, I have built a solid foundation in full-stack web development, server administration, and cloud deployment through both coursework and practical projects. These experiences have fueled my passion for solving real-world problems with technology and have prepared me to take on meaningful responsibilities in a professional environment.

My technical skills include:

- Cloud & Infrastructure: AWS EC2, DNS, SSL, and server security configuration
- Server Management: Apache, MySQL, PHP, Ubuntu/Linux (CLI, MobaXterm)
- DevOps & Automation: GitHub-based deployment workflows
- Full-Stack Development: Laravel PHP for backend services and Vue.js for modern front-end interfaces
- Agile Leadership: Scrum Master experience leading sprints and coordinating tasks using Jira
- Data Visualization: Basic Power BI for building dashboards and presenting metrics

I am particularly drawn to ADITI because of its emphasis on building innovative digital solutions. I am eager to apply my skills in a hands-on setting, contribute to impactful projects, and grow under the mentorship of experienced professionals.

Thank you for considering my application. I would welcome the opportunity to discuss how my background and enthusiasm align with the goals of **ADITI**. I am available for an interview at your earliest convenience.

Sincerely,

Chem Khoeurn
